INSTRUCTION TO ASSEMBLE

Material - Plexiglas

Parts - 7 pieces

- a. Two 12x6x1/8 across top and 6x6x1/8 down side with 7 ½ inch span fold.
- b. One 12x2x1/8 with ¼ inch span fold over measuring 12x1x1/8
- c. One 12x3x1/8 with 1 inch span fold over measuring 12x1x1/8
- d. One 12x10x1/8 with 1 ½ inch span fold over measuring 12x2x1/8
- e. Two brackets 5x¼ inch

Sections - Two sections after being assembled. One side of base with holder and brackets attached and the other half of base with no attachments.

- 1. Base section - consist of four pieces , two 12x6x1/8 across with 6x6x1/8 sides - two brackets 5 inches x¼ . The two 5 inch brackets are glued five inches from end on both top sides of one 12x6x1/8 top with 6x6x1/8 side. The second 12x6x1/8 with 6x6x1/8 open end slides into brackets on first piece.
- 2. Top section - consist of three pieces - one 12x10x1/8 with 1 ¼ inch span fold over measuring 12x1x1/8 inch - one 12x3x1/8 with 1 ½ inch span fold over and one 12x2x1/8 with ¼ inch span Fold over measuring 12x2x1/8. The 12x3x¼ piece is glued

on the right half base of base lengthwise $\frac{1}{2}$ inch from back with fold 3 inches from front. The 12x10x1/8 piece is glued lengthwise to the 1 inch raised section front of 12x1x1/8 fold. the fold of the 12x2x1/8 is fitted onto top of 12x10x1/8 with 1 inch section facing the front and glued.

The two sections are easily assembled for use by fitting the left side into the brackets on right side. Reverse directions for disassembling.

SUMMARY OF INVENTION

PURPOSE- This invention is a useful item of support for use at such as conferences, workshops, churches and schools. It will allow user's hands freedom to write and/or handle other materials in meetings, or personal use in office, or home. Prior to this useful invention people have clumsily tried to stabilize books and other materials on their laps.

CONSTRUCTION - The Laptop Bible/Book holder is a two piece unit made of Plexiglas material that makes it easy for transporting.
